# MOLLA JOHIRUL ISLAM SOBUJ

## SOFTWARE ENGINEER

Dhaka, Bangladesh • Johirulsobuj10@gmail.com • +880 1721-551970
github.com/sobuj069 • sobuj069.github.io/Personal_Portfolio

### SUMMARY

Software Engineer with 3+ years of hands-on experience designing and shipping scalable web applications, REST APIs, SaaS platforms, POS systems and e-commerce stores. Strong in Laravel 10/11, PHP 8.x and MySQL schema optimization, with additional expertise in Google Tag Manager, server-side tracking (sGTM), DataLayer architecture and AI workflow automation (OpenAI APIs, Make, n8n). Delivered 9+ live production deployments with clean, maintainable code, secure authentication and responsive, conversion-focused interfaces.

### KEY HIGHLIGHTS

- **3+ years of production experience** across Fast IT and Ngen IT; **9+ live SaaS, e-commerce and corporate deployments**.
- Built **MediFlow Pharmacy SaaS** with a 10,000+ medicine directory sync and 80/58mm thermal POS billing.
- Implemented **GTM / sGTM server containers and Meta CAPI** with event-ID deduplication for accurate full-funnel conversion tracking.
- Integrated local payment gateways (SSLCommerz, bKash, Nagad) and Stripe; automated courier booking (SteadFast, Pathao).

### PROFESSIONAL EXPERIENCE

**Laravel Developer, Fast IT, Dhaka** `Jan 2026 - Present`

- Architect and maintain production web applications with Laravel and PHP, including SaaS, POS and e-commerce platforms.
- Develop high-throughput RESTful APIs for internal and external platform integration.
- Optimize relational database schemas, index strategies and complex queries in MySQL.
- Build responsive user interfaces using Bootstrap 5, Tailwind CSS and JavaScript.
- Enforce strict Git workflows, code reviews and quality assurance during sprint cycles.

**Full Stack Laravel Developer, Ngen IT, Dhaka** `Jan 2025 - Jan 2026`

- Engineered full-stack applications and corporate web portals using Laravel, PHP and JavaScript.
- Implemented role-based access control (RBAC), multi-tenant user authentication and API security.

- Built responsive interfaces with Tailwind CSS, Bootstrap and asynchronous AJAX interactions.
- Designed normalized MySQL databases with migration scripts and seeders for high query efficiency.

### Private Tutor & Online Educator, Self-Employed

Jun 2019 - Present

- Teach ICT, Computer Science, Mathematics and English online; develop structured learning materials and study plans.

## PROJECTS

### COMPANY / CLIENT PROJECTS

#### Camera BD - Premier Pro Camera & Broadcast Solutions, Bangladesh

camerabd.com.bd

• Premier pro camera and broadcast equipment e-commerce platform built with Laravel 10 and Livewire 3.
• Implemented high-end gear catalog, barcode inventory tracking, automated ADN SMS gateway notifications, and fast responsive checkout.

#### NGen IT Ltd. - IT Solutions & B2B E-Commerce Portal

ngenitltd.com

• Laravel-based corporate and B2B commerce portal: catalog of 4,000+ products across 400+ brands, RFQ / price-quotation flow, and separate client and partner login portals.
• Includes blogs, client stories, job-application module and category / brand navigation for software, hardware and industrial products.

#### Fast Tech - Premium E-Commerce Solutions, Bangladesh

fasttech.com.bd

• Premium e-commerce solutions website for the Bangladesh market, built with a responsive, conversion-focused front-end.

#### Fast IT - Company Website

fastit.com.bd

• Corporate website and web platform developed and maintained at Fast IT.

#### TechFocus Ltd. - Company Website

techfocusltd.com

• Corporate technology company website delivered with a responsive, modern UI.

### PRODUCT & PERSONAL PROJECTS

#### MediFlow - Pharmacy SaaS & POS

• Multi-tenant pharmacy SaaS built with Laravel, featuring a 10,000+ medicine directory sync and real-time inventory.
• Thermal POS billing (80/58mm) with role-based access for pharmacy staff.

#### SM Cloud POS - Cloud POS & eCommerce Platform

demopos.smcloudit.top

• Multi-outlet cloud POS with counter billing, barcode scanning, thermal receipts, batch inventory and live profit reports.
• Integrated SteadFast and Pathao courier booking, bKash / Nagad / SSLCommerz / Stripe payments, SMS due reminders and a hardware catalog.

#### Restaurant POS & Kitchen Display (KDS)

resturentpos.smcloudit.top

• Restaurant point-of-sale with separate admin, cashier and kitchen-display (KDS) roles.

#### SM Shop - 3D E-Commerce Store

e-commerce.smcloudit.top

• Laravel online store with category browsing, product detail pages, cart and checkout, flash-deal timer and voucher system.

#### La Preepies - E-Commerce Store

• Production e-commerce store with GTM / DataLayer tracking and Meta Pixel with Conversion API (CAPI) integration.

### AERO - Drone Camera Website

drone-camera.smcloudit.top

• Modern, responsive product-showcase web application built with Laravel.

### Sports - Motorsport Athlete Portfolio

sports.smcloudit.top

• Front-end build of an athlete brand site: career history, race calendar, media gallery, sponsor and contact sections.

### SM Cloud IT - Corporate Technology Portal

smcloudit.top

• Corporate company website presenting the SM Cloud IT products and live projects.

## SKILLS

**Languages:** PHP 8.x, JavaScript (ES6+), SQL, HTML5, CSS3

**Backend:** Laravel 10/11, Eloquent ORM, REST API design, custom middleware, queues & jobs

**Authentication & Security:** RBAC, multi-guard / multi-tenant auth, API security

**Database:** MySQL, schema design, migrations & seeders, indexing & query optimization

**Frontend:** Tailwind CSS, Bootstrap 5, Alpine.js, AJAX, responsive & mobile-first UI

**Analytics & Tracking:** Google Tag Manager (web & server-side), DataLayer, GA4, Meta Pixel & CAPI, Mixpanel

**AI & Automation:** OpenAI / Claude API integration, prompt engineering, Make, n8n, Zapier

**Payments & Integrations:** SSLCommerz, bKash, Nagad, Stripe, SteadFast & Pathao courier APIs

**POS & Hardware:** Thermal receipt printing (80mm / 58mm), barcode scanning, cash-drawer

**Dev-Ops & Tools:** Git / GitHub, cPanel & Linux server deployment, code review, sprint workflow

## EDUCATION

### Bachelor of Science in Computer Science & Engineering

2021 - 2025

City University, Dhaka • **CGPA: 3.28 / 4.00**
Focus: Software Engineering, Data Structures & Algorithms, DBMS, Computer Networks, Web Architectures

### Higher Secondary Certificate (HSC), Science

2020

Bepza Public College, Dhaka • **GPA 4.86 / 5.00**

### Secondary School Certificate (SSC), Science

2018

Tangail Residential School & College • **GPA 4.96 / 5.00**

## ADDITIONAL INFORMATION

- **Availability:** Immediate / 15 days notice; open to full-time and remote roles (UTC+6).
